

Satya Sayanendra Rayudu Allavarapu

Software Engineer – Entry Level

sayanendra44@gmail.com — +91 8712711814 — linkedin.com/in/rayudu-allavarapu

Professional Summary

Entry-level Software Engineer with strong fundamentals in component-based development, maintainable coding practices, and performance optimization. Experienced in building reusable modules, understanding existing codebases, and implementing client-side logic including caching mechanisms through academic and project work. Passionate about writing clean, scalable code and improving application performance.

Technical Skills

- **Programming Languages:** JavaScript, Python, Java (Basics)
- **Web Technologies:** HTML, CSS, Client-Side Framework Concepts
- **Core Concepts:** Data Structures, OOP, Code Optimization, Reusable Components
- **Security & Utilities:** AES Encryption, Caching Techniques
- **Tools & Platforms:** Git, AWS Cloud9, OCR Tools, VS Code

Projects

Secure Chatbot Application (AES-Based)

Developer

- Developed chatbot components based on functional and design specifications.
- Implemented maintainable client-side logic with AES encryption for secure communication.
- Analyzed existing code and optimized message handling for improved performance.
- Designed reusable encryption and utility modules to enhance scalability.

OCR-Based Data Extraction and Processing System

Software Developer

- Built components to extract structured data from images using OCR technologies.
- Created reusable data-processing modules to convert extracted text into Excel formats.
- Optimized existing pipelines to improve accuracy and processing efficiency.
- Implemented basic client-side caching to avoid redundant OCR operations.

Generative AI – Image Captioning Project

Intern / Developer

- Developed components based on image captioning design and model specifications.
- Reviewed existing codebases and suggested performance and logic optimizations.
- Built reusable preprocessing and post-processing modules for model outputs.
- Worked with AWS Cloud9 for development and testing.

Education

SRKE Engineering College

Graduated 2025

Bachelor of Technology (B.Tech) — CGPA: 7.33

Sasi Junior College

2021

Intermediate — 85.5%

Montessori E.M High School

2019

SSC — GPA: 9.3

Certifications

- Google Cloud Career Launchpad – Engineering Track
- Cisco CCNAv7: Introduction to Networks
- Cybersecurity Essentials – Cisco
